About This Content

VR Austria is a stereoscopic virtual reality app, that offers you a look at Austria – as if you were there, on a typical summer's day. Visit beautiful locations that can be dynamically switched between, just by looking.

This free DLC is ideal for people with high computer specifications and advanced VR-Headsets. This pack contains the same videos as the base game, but in 4k resolution.
To make full use of this, you'll need a graphicscard like the GTX 10xx series or better.
